KMOP - Social Action & Innovation Centre invites you to the event “**Enhancing the anti-trafficking identification, prevention and support mechanisms**”, that will be held in Brussels on September 27, 2022, 10.00 – 18.00 CET.

We will embark on a journey to:

- discuss the prevalent data on human trafficking and raise awareness on the best practices promoted by organizations specialized in the area
- exchange ideas towards ensuring better and more effective coordination mechanisms regarding protection and response systems against trafficking
- contribute to the potential publication of recommendations for strengthening national and transnational cooperation to prevent trafficking
- present and further disseminate your relevant project results to a targeted audience

Aiming to construct a challenging agenda with experts on trafficking from respective authorities, field organisations and academics, we hereby attach a first draft, which will be completed in due time as we are expecting official confirmations of attendance.

It would be a pleasure for us to include you as a substantial presence of the conference.

You may pre-register here:

[Register here](#)

We remain at your disposal for any further clarifications needed and of course it would be our honor if you wish to be a speaker on our **Best practices against trafficking** panel.

For additional information: activate-project@kmop.org

The event will be organized within the framework of the project **ACTIVATE - enhancing the anti-trafficking identification, prevention and support mechanisms**
