YOULead Curriculum

Our partners have been hard at work crafting a unique learning experience. The curriculum consists of six mind-expanding modules covering everything from citizen's rights and democratic values to media literacy and sustainable development. It's not just for classrooms - our material can be used online too! Available in Greek, German, Italian, Portuguese, and English, it's accessible to all. The curriculum will be showcased on our website and the e-learning platform we're building. Plus, we've fine-tuned the content based on valuable feedback from stakeholders.
