#### Event Focus:

The IMMERSE & REFUGE-ED 2023 Final Conference aims to address the critical need for successful integration of migrants, refugees, and their children in European societies. IMMERSE and REFUGE-ED, two influential Horizon 2020 projects, have collaborated to create indicators, construct online databases, and generate policy recommendations to enhance the socioeducational integration of refugee and migrant children. This conference provides a unique opportunity to consolidate efforts, share knowledge, and collectively work towards more inclusive and cohesive European societies.

We look forward to your presence at this significant event, where policymakers, educators, mental health professionals, researchers, practitioners, children, families, and civil society organizations will come together to advance the cause of integration in Europe.
